

Are you a Marksman, sports shooter or a hobby shooter?
Do you want to be able to continue buying "large" magazines?
Do you want to be a certified Marksman?

Then the ISB is the right place for you!

For only **20 € Membership Fee per year** you can take advantage of all the benefits that a worldwide association offers:

The ISB also represents all Marksmen like hobby shooters and professional gun owners, not only top athletes.

The ISB has its own sports regulations and shooting disciplines, which are the prerequisite for owning and acquiring "large" magazines for pistols and semi-automatic rifles. The ISB organizes National, State, European and World Championships, in which guests are also allowed to participate.

Members receive a Marksman's Pass from the ISB and can obtain all the confirmations required by the authorities. So join now!

The International Shooting Association
"ISB Internationaler Schützenbund"
introduces itself

Who are we?

The ISB is the worldwide contact for all aspects of sport shooting. Together with our members and partners, we build up representations in all parts of the World and are able to hold our own National, European and World Championships.

The aim of the ISB is to maintain, promote, support, practice and guide the shooting sport, the shooting system and the shooting tradition as an international umbrella organization for Marksmen and sport shooters in all kinds of shooting sports in top-class and popular sports, hobby shooters, shooting sport practitioners, traditional marksmen, professional weapons carriers and legal gun owners.

20 € Annual Membership Fee!

Only together we are strong!

The more members we have, the more importance we carry.

With a membership you support yourself and you fulfill the legal requirements.

The ISB also campaigns against any further tightening of the gun laws and against harassment of gun owners.

This should be worth the 20 € per year to every Marksman.

What are the advantages of the ISB for shooting sports clubs?

Shooting clubs do not pay any Association Fees in the ISB. Shooting clubs can host ISB championships on their own account.

Shooting clubs are represented in an International Federation through their membership in the ISB.

What are the advantages of the ISB for companies?

The ISB is committed to its members and associations. The ISB creates the basis for sport shooters according to the current legal situation.

The ISB is against any further tightening of the Gun Law.

If there are no more Marksman or shooters, the gun shops will no longer be able to sell weapons, ammunition, equipment, etc.

If there are no more shooters, the industry can no longer produce articles in this segment.
