Who we are...

The ISB is eager to be THE worldwide contact for all aspects of sport shooting. In cooperation with our members and partners we are establishing representations all over the world that put us in the position to hold our own Local-, National-, European- and World- Championships.

The objective of the ISB is to maintain, promote and support the shooting sport, the marksmanship and all other legal gun owners as an international umbrella organization for marksmen and sport shooters of all kinds.

20 € Annual Membership Fee!

Together we are strong!

We establish a worldwide connection for all sport shooters. The more members we have the more impact we will have. The ISB also campaigns against any further restrictions of gun laws and against harassment of legal gun ownership. With a membership you support yourself and promote the legal possession of weapons. This should be worth the 20 € per year to every member.

What are the advantages for shooting clubs?

Shooting clubs do not pay any association fees in the ISB so no more expenses are created by a membership in our shooting federation.

The self-perception of ISB is to be a service platform for its clubs and members.

Shooting clubs can host ISB championships without contribution to the ISB.

Shooting clubs are represented in an international federation by their membership in the ISB.

What are the advantages for companies?

Associated companies will be linked with their logo on the ISB website.

Associated companies are allowed to represent themselves with sales- and information booths at our shooting events. New products of our associated companies can be exhibited and promoted during our shooting events, for example prototype test shootings or testing of additional equipment.

Special offers are linked on our social media accounts and will be shared through our newsletter. We will showcase merchandise and flyers from our associated companies.

Our Membership Fee for companies can be deducted from taxes, so that this membership doesn't cause any real costs for companies.

The ISB is looking forward to a partnership with companies in favor of all sport shooters and the advancement of legal gun ownership.
