Rules and Sport Shooting Regulations of the ISB International Shooting Association

Regulations for Duty Pistols

1. General Information:

The specifications of each discipline are stated In the Shooting Rules of each shooting category.

The "International Shooting Regulations" "ISchO" of the ISB are to be consulted for all activities and competitions.

2. Firearms:

Weapon type: Duty pistols have been officially introduced into an authority like police, customs, army etc. All models and types are permitted for this type of shooting, which were introduced for an armed force and were purchased in a quantity of at least 1,000 pieces.
Revolvers are also counted as duty pistols, and it is also permitted to shoot with revolvers that were introduced for official purposes in this discipline.

Barrel length: according to the original
Calibre: only calibers originally used for these weapons, i.e. only officially used calibers.
Trigger: original trigger with at least 1.5 kg trigger weight
Sight: original sight which was used, fixed rear sight and front sight as it was used as standard.
Condition: basically standard (out of the box), only identical spare parts may be used which do not give any advantage over the standard model.
Valid proof of the weapon must be available, no technical defects.

3. Ammunition:

Only metal cartridges with nitro powder and commercially available bullets with the ballistic performance corresponding to the caliber are allowed to be used. Factory ammunition or hand-loaded cartridges according to the CIP standard are permitted, reduced loads are prohibited.

4. Equipment:

According to ISchO 3.2.10. every shooter und every person present on the shooting range has to wear ear and eye protection.
Additional equipment: Extra magazines for guns, which have less capacity than shots required for the discipline.
The shooter has to reload his weapon independently during the discipline if the magazine capacity of the used weapon has less shot than are necessary for that discipline. The time used for the reload will be added to the overall time for that discipline.

5. Safety regulations:

According to ISchO 3.2. till 3.2.10.

6. Shooting positions:

The required shooting positions must be proclaimed in the announcement of the competition for every single discipline. The organizer of the event can choose from the following shooting positions:

- **"Standing Free" according ISchO 7.4.**
- **"Prone Free" according ISchO 7.6.**
- **"Kneeling Free" according ISchO 7.8.**

7. Disciplines:

Every shooter must shoot at least 2 series in every discipline during a competition, evaluation according to deck series. Unlimited rebuy.

Every shooter must shoot 5 series in every discipline during a championship, evaluation according to deck series. No rebuy.

The organizer of the event can choose the disciplines.

All disciplines have to be proclaimed and explained in the announcement of the competition. The organizer of the event can choose one or more disciplines for that competition. The shooters don't have to participate in all disciplines. Evaluation and award ceremony are held for each discipline itself.
All distances are in meters.
