

Rules and Sport Regulations of the ISB International Shooting Association

Regulations for Semi-Automatic Rifles Big Bore

Version: 2

Authorized by the President of the ISB on 01.06.2021

1. General information:

The specifications of each discipline are stated In the Shooting Rules of each shooting category.

The "International Shooting Regulations" "ISchO" of the ISB are to be consulted for all activities and competitions.

2. Firearms:

Weapon type: Semi-automatic rifles are all multi-shot rifles which reload automatically after a shot has been fired, i.e. which feed a cartridge into the loading chamber. At semi-automatic weapons the trigger has to be pulled for each individual shot.

Weight: In contrast to match rifles, the weapons used in this discipline may only have a total weight (including the mounted optics) of a maximum of 6.5 kg.

Barrel length: according to the calibre, the total length of the rifle has to be more than 60 cm

Calibre: from .223 Rem (5,56x45mm) and larger.

Trigger: original trigger with at least 1 kg trigger weight

Sighting: Rear sight and front sight can be used, optics such as red-point reflex sights or rifle scopes up to a maximum enlargement of 6x.

Variable rifle scopes which can magnify more than 6x must be set to 6x or less.

Condition: Valid proof of the weapon must be available, no technical defects.

3. Ammunition:

Only metal cartridges with nitro powder and commercially available bullets with the ballistic performance corresponding to the caliber are allowed to be used. Factory ammunition or hand-loaded cartridges according to the CIP standard are permitted, reduced loads are prohibited.

4. Equipment:

According to ISchO 3.2.10. every shooter und every person present on the shooting range has to wear ear and eye protection.

Additional equipment: Extra magazines or clips for guns, which have less capacity than shots required for the discipline.

The shooter has to reload his weapon independently during the discipline if the magazine capacity of the used weapon has less shot than are necessary for that discipline. The time used for the reload will be added to the overall time for that discipline.

5. Safety regulations:

According to ISChO 3.2. till 3.2.10.

6. Shooting positions:

The required shooting positions must be proclaimed in the announcement of the competition for every single discipline. The organizer of the event can choose from the following shooting positions:

- **"Sitting" according ISChO 7.1.**
- **"Sitting Free" according ISChO 7.2.**
- **"Standing Free" according ISChO 7.4.**
- **"Prone" according ISChO 7.5.**
- **"Prone Free" according ISChO 7.6.**
- **"Kneeling" according ISChO 7.7.**
- **"Kneeling Free" according ISChO 7.8.**

7. Disciplines:

Every shooter must shoot at least 2 series in every discipline during a competition, evaluation according to deck series. Unlimited rebuy.

Every shooter must shoot 5 series in every discipline during a championship, evaluation according to deck series. No rebuy.

The organizer of the event can choose the disciplines.

All disciplines have to be proclaimed and explained in the announcement of the competition. The organizer of the event can choose one or more disciplines for that competition. The shooters don't have to participate in all disciplines.

Evaluation and award ceremony are held for each discipline itself.

All distances are in meters.
